

POWER BANK

EXTRA MICRO USB CABLE

USB C CABLE

MANUAL

This product delivers an output of 12W per USB port. It is possible to charge USB C devices with the

When using the Power Bank with devices that require a higher input than 12W, the charging process could still work but at a slower rate. The speed depends on the power consumption (for example, if the device is turned off charging will be faster).

Xtorm chargers are always pre-charged. This means you can start using your new Power Bank from the moment you remove it from the box.

The Power Bank Explore features Quick Charge 3.0 technology, allowing extra fast charging of mobile devices. If your smartphone uses the same technology, it will charge up to 85% faster!

"Please note: Not all devices have this technology, check the documentation of your device carefully to see whether it is QC 3.0 compatible.

The Xtorm Power Bank automatically stops charging when the connected device is fully charged. This means you do not have to worry about overloading your mobile devices.

The XB2-line is a contemporary and stylish Power Bank range. This line-up of high quality products are accessible, very easy to use and contains all the latest innovations. The best became better; the XB2 line-up is the successor of the successful and multiply awarded XB-range.

All Xtorm products have a 2 year warranty in case something goes wrong. We ensure that you will receive a replacement if the product fails within 2 vears.

Then Accessions has tested the product in a test environment. All a test environment. All statements/declarations made by Telco Accessories about the (operation) of the product at the sade on the results obtained results (statements/declarations cannot be quaranteed, for example in cases of deviating or injudicious use and/or use in a different environment.
