HOW TO USE THIS POWERSTATION

Press the button on the output you want to use

FOR USB/DC OUTPUT: Press 1 second
FOR AC OUTPUT: Press 2 seconds

The output is working when the green light turns on. You can now use this output

TIP: when not using an output, turn it off to save energy.

3

4

CHARGING FROM WALL CHARGER:

Use the included AC charging adapter to connect to the 6.5mm DC input port. (max 72W)
You can also connect a use a USB-C PD charger to the USB-C port. (max 60W)

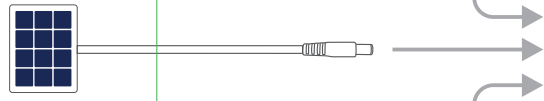

CHARGING FROM A SOLAR PANEL:

Connect your Solar Panel directly to the 6.5mm DC input port.
If your solar panel has an MC4 connector, please use the adapter cable that is included.

5

6

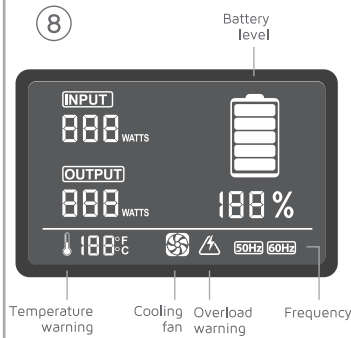

IMPORTANT NOTE:
When using a Solar Panel to recharge the Power Station, make sure the power does not exceed 26V. If more power is used it can cause serious damage to the unit.

7

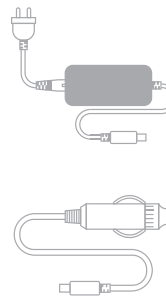

RECHARGING THE POWER STATION
The Power Station is fully charged when the LCD display shows 100%.
